

Dear Lily

Hi, my name is Samuel it is nice to be able to meet, talk to someone who lives half way around the world and to be able to talk to you. In my letter I am going to tell you some of the things I like to do, ask you questions and answer the ones you gave me the best I can.

To start out with I am 13 and I love computers and how they work, they are just cool and overall amazing I got a new one for Christmas. I also like technical things and try to challenge myself to have lots of fun. I also love to run and play video games I am about to compete in a tournament for the school and hope to win. My favorite school subject is probably math because it challenges me and, we do math that is above our grade level.

Now I am going to try to answer your questions. My favorite food would have to be either cheeseburgers or brownie sundaes for sure I also like to eat pizza, fondue, cake, and many other foods, I could go on and on, but the list would never end. I do have 2 pets a cat and a dog. My cat is adorable, she is very small and loves roaming around the house. Now my dog Bella is 80 pounds and is 11 and a half months old, when I play with her it's like fighting an alligator she sticks everything in her mouth. A hobby of mine would be definitely to run I do it sometimes it's a lot of fun and is stress relieving for sure. I also like to listen to music I don't have a favorite and or song though. Then an average day for me would be wake up, eat breakfast, go to school, have fun at school, go home, do homework, and then do whatever. That is my average schedule obviously that isn't very specific or detailed, so it doesn't sound very exciting, but it is.

Now some of my questions to you, how is it learning a new language also is it easy or difficult, do you like to watch TV if so what's your favorite show, what are some holidays you celebrate, and what is your favorite restaurant.

Hope you had fun reading my letter this is literally the first time I wrote a letter to someone really without it just being a class grade, I just text people all the time, and also thank you for being my penpal.

Sincerely

Samuel
